

AYUSH MISHRA

Software Engineer (Fresher) — Python / Java / JavaScript

Greater Noida West, UP | +91 7532058035 | ayushmishra28114@gmail.com | github.com/Ayushm28114

PROFILE

Computer Science graduate with strong fundamentals in data structures, algorithms, and full-stack development across Python, Java, and JavaScript. Built and shipped two complete applications end-to-end — gathering requirements, designing efficient APIs, writing testable code, and deploying to production with CI/CD. Comfortable across the full SDLC, from initial design through documentation and maintenance. A fast, independent learner with hands-on exposure to multiple languages, frameworks, and frontend development.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), SQL

Core CS: Data Structures & Algorithms (arrays, hashing, recursion, linked lists), problem-solving, software design principles

Frontend Development: React.js, HTML5, CSS3, responsive UI design

Backend & Data: Django REST Framework, RESTful APIs, PostgreSQL, MySQL, MongoDB, JWT Authentication

Practices & Tools: Full SDLC exposure, Git/GitHub, code review, documentation, CI/CD, Vercel

PROJECTS

AnimeVerse — Full-Stack Web Application | *React.js, Django REST Framework, PostgreSQL, JWT*

- Gathered feature requirements and designed a complete platform end-to-end, from database schema to API to UI, covering the full SDLC.
- Wrote well-documented, testable backend code, reducing external API latency by 80% through a custom caching layer.
- Maintained and iterated on the codebase over multiple feature releases, including a social review/voting system with likes and replies.

Crypto Trade Calculator — Real-Time Hackathon Project | *React, TypeScript, Tailwind CSS, CoinGecko API*

- Applied data structures and algorithmic logic to implement FIFO-based gain/loss calculations with CSV/TXT export.
- Designed and built the frontend UI/UX independently, including dark/light themes and animated transitions.
- Deployed and maintained the application via Vercel with CI/CD under hackathon time constraints.

EDUCATION

Bachelor of Technology, Computer Science and Engineering | *Noida Institute of Engineering and Technology, Greater Noida, UP · 2022–2026*

Senior Secondary (XII), 89% | *Aster Public School, Noida Extension, UP · 2022*

CERTIFICATIONS

- JavaScript Essentials — Infosys
- ReactJS — Infosys
- Blockchain Basics — The State University of New York

LEADERSHIP & ACHIEVEMENTS

Team Captain, Infinity Loop | *Hackathon Team Lead*

- Led a competitive hackathon team across events including Smart India Hackathon, driving technical strategy, task delegation, and quick independent learning of new tools under deadline pressure.
